

## 48/5827 Camp Raccoon Photo Magnet Craft

Please be sure to have adult supervision if using a glue gun for this craft.

1. Glue the foam grass to the bottom of the blue frame. Glue the moon, foam sign, and foam stars to the top of the frame as shown.
2. Glue the two foam trees to the left side of the frame. Glue the yellow foam flames to the orange fire, then glue the fire to the foam wood. Glue the completed fire to the center of the foam grass.
3. To make the raccoon, glue two foam ears and the foam mouth to the raccoon's head. Glue three foam stripes and the foam foot to the raccoon's body. Glue a black paw to the end of the foam arm. Glue two foam marshmallows to the foam stick, then glue the stick to the back of the foam paw. Glue the completed arm to the raccoon, then glue the raccoon to the right side of the frame.
4. Glue the magnet to the back of the foam frame. Be sure to test for the magnetic side before gluing. Allow time for your craft to dry, than tape or glue your photo to the back of the frame.
